

I have known Brenda and Tim Sorrells for more than 25 years, even before she created and opened Exotic Aquatics. I was one of her very first customers, when all of those many years ago, she designed, built and stocked our first KOI pond, and has maintained and serviced it every month and year since then. Not only have they continuously maintained and monitored our ponds and monitored our fish perfectly...if I ever called them, at any time during the past 25 years, for any reason or emergency, Brenda was ALWAYS there! I would never think, for any reason, to trust or rely on anyone else, to take care of our ponds and fish...they are simply the very BEST at what they do! If anyone is considering doing anything at their home or business involving ponds, fish, fountains or anything related, I most HIGHLY would recommend that you call Brenda at Exotics Aquatics, for whatever your needs might be! Thru these many many years together, Brenda, Tim, et al, have become even more than friends, to Paulette and me, they have become more like Family! I would be more than happy to have anyone call me, or come to see their work at my home!

Michael and Paulette faber
